INTRODUCTION

Sex.

It's a fundamental human requirement, right up there with food, water and a decent wi-fi signal. Like food and drink, it straddles the territories of *need* and *want*, laying equal claim to both. As with food and drink, it isn't enough to simply *have* sex it needs to satisfy certain criteria. This criteria will vary from person to person. There are doubtless things that turn you on that would have little or no effect on someone else. What drives you wild may leave another woman cold or send her screaming from the room.

And so it is with the various and varied men of the zodiac. What might set the heart of a Capricorn man racing may well give the Gemini man entirely the wrong kind of goosebumps. The purpose of this book is to help you induce the *right kind* of quivers and shivers in your man, from Aries to Pisces, and to ensure you receive a plentiful supply of quivers and shivers yourself.

I'll warn you right now that this is a forthright and unflinching book. It certainly isn't for the prudish. Let's face it, there's no point talking about sex unless we're going to be frank. In the interest of clarity, I'll will be calling a clitoris a clitoris, a penis a penis and so on. There will be no references to 'love buds' and 'passion rods'. I suspect you'll be relieved by this disclosure. But if you prefer talk of 'flowers' and such, it's probably not too late to request a refund.

Each chapter will be broken down into three sections:

Overview

What Does Sex Mean to the Aries Man [for example]?

What's in it for You?

What Works for Him?

Then each chapter is topped off with advice on *The One Thing You Must Do* and *The One Thing You Mustn't Do*.

Overview

This is the only point in each chapter where I *won't* be talking about sex. And that's a promise! Here I'll be looking at the whole person, his personality, what

he likes and dislikes, what drives him, what ignites his interest, what's great about him and what's downright infuriating.

Although I imagine most men will be perfectly happy to be seen exclusively as a sex object, women, on the whole, are big fans of context. And rightly so. Nothing exists in a vacuum, and any attempt to explore the sexual life of a man will be half-baked at best if we don't first attempt to shine a light on his non-sexual life. But don't worry; given that most men think about sex almost all of the time, anyway, this segment of each chapter is going to be pretty short. What the heck, feel free to skip it entirely!

What Does Sex Mean to the [insert star sign here] Man

Here, I'll be exploring the various zodiac males' attitudes to sex. Is sex just a recreational activity for him, is it all about conquest, a bit of fun or is it inextricably bound-up with love and romance? Once you're privy to this information, you'll be able to see if his attitudes are aligned with your own or whether you're faced with something of a challenge. You might even find something here which you can exploit in some way to your own sensual ends, such as the Cancer man's eagerness to please!

What's in it for You?

As editor of *The Astrology of Love* website, I receive any number of emails on the topic of men, sex and star signs, but by far the most common is this one: *is he any good in bed?* It's a tricky one to answer because it's such a vague question. So here I'll be trying to cover all the bases in relation to this sweeping enquiry. I'll be looking at his endurance, his technique, how thoughtful he is and, ultimately, whether or not he's going to deliver you breathless and satisfied to your desired destination. Sorry, I said I was going to be frank. This section tells you if your man is capable of getting you to orgasm. And, if not, what you can do to 'fix' him.

What's in it for him?

This section of each chapter relates to the second most common question I receive as editor of *The Astrology of Love* website. Namely, *how do I turn him on?* Could be you're thinking, As long as the *What's in it for me?* bit meets my requirements I couldn't care less! If you're feeling a little more generous, however, here you'll find information concerning what is likely to initiate his ardour, such as what clothing and perfume to wear. More to the point, in this section I'll tell you about

your man's erogenous zones, the kinds of things you can do or say to really get his blood pumping, whether he has any unusual kinks and what sexual positions are guaranteed to drive him wild. With pictures!

The One Thing You Must Do and the One Thing You Mustn't Do

This consists of just two brief sentences. The one thing you categorically must do and the one thing you categorically must not!

A WORD OF CAUTION

Astrology can be an extremely useful and powerful means of forming a picture of your intended paramour. Is he a fiery Scorpio, a kinky Gemini or a vigorous Aries? However, it's important to bear in mind that there can be a lot more to a man than the constellation under which he happened to be born.

Few people pass through life without being subjected to the potent and unpredictable forces of chaos. Put simply: things happen to people. Most of these things are of little or no significance but sometimes people are exposed to events and forces that are truly and powerfully transformative. And this is when you find yourself confronted with the shy and retiring Leo, the reckless Capricorn, the uncaring Cancer, the cold and unemotional Pisces.

This is a rather long-winded way of advising you to tread a little carefully and don't simply assume that because a guy was born on November 5th, he's going to respond to your advances like a wild animal. Do a little research first. Get to know the guy. Take his sensual temperature, as it were. To quote the great American poet, Robert Frost, "Don't ever take a fence down until you know why it was put up."

A SECOND WORD OF CAUTION

Although this guide teaches you the tricks, techniques and trade secrets of 'wowing' your man in bed, I wouldn't want you to think that I'm suggesting you kneel at the altar of your man's sexual needs, making your body and your *self* subservient to the requirements of his libido.

This guide is really about *you*. About *your* sensuality. This guide wants you to feel sexy and confident. This guide wants to put *you* in control of *your* sex life.

So, with that in mind, I want to make a few suggestions.

(Now, if you're a woman who already knows her own mind, her own body and is fully conversant with the strange and exhilarating hot zone where the two meet, feel free to skip this bit.)

1. Before going to bed with a man, ask yourself, are you *absolutely* certain this is what *you* want to do? If you feel in anyway pressured or uneasy about taking things to the next level, then don't rush things. Wait until you're ready. Any guy worth a dime is going to respect your feelings. If he makes for the door, then good riddance to bad rubbish. He isn't the kind of guy you need in your life.

2. Despite the fact that sex is an inordinate amount of fun, it can have serious consequences. Please remember to take all necessary precautions against unwanted pregnancy and sexually transmitted disease. Sorry to sound like a cross between your mom, a high school teacher and a worldly nun, but it needs to be said.

3. Don't put yourself under too much pressure. Sex should be a pleasurable experience. You shouldn't feel as if you're taking a test. Relax. Enjoy yourself. And, remember, practice makes perfect. If at first you don't succeed, try, try again.

4. Talk to your friends and family. Sex is a near-universal activity. Pretty much everyone does it. If you have doubts, anxieties and insecurities, it really does help to share. You'll be surprised just how many vivacious 'women of the world' have disastrous and embarrassing sexual experiences in their past. These incidents will almost always be filed under 'I Can Laugh About It Now...' Once you realise that sex is largely a matter of trial and error, and that few people engage in it without a certain amount of nervousness, you'll feel a lot more relaxed.

5. Each chapter contains a section entitled 'What's in it for You?'. This is a question that should be foremost in your mind when it comes to matters of the flesh. You're not a sex aid. You're a human being with complex sexual desires of your own. Make sure *you're* satisfied.

Good luck.

And enjoy.

SEX AND THE AQUARIUS MAN

An Overview

The Aquarius man is one of the quirkiest signs of the zodiac. His natural tendency is toward nonconformity, and he values his freedom above all else. This doesn't necessarily mean *physical* freedom -- Aquarius men are perfectly capable of marriage, monogamy and of forming meaningful long-term relationships -- but can mean *mental* freedom. They don't like systems and rules. Instead they are attracted to radical ideas and new ways of thinking. Moreover, they are likely to create their own unique ways of doing things. They love exploring new experiences and sensations, and acquiring new knowledge, but whereas the Sagittarius man's pursuit of the new is driven by a sense of adventure, the Aquarius man is driven by intellectual curiosity.

What does Sex Mean to the Aquarius Man?

Perhaps, I should start by telling you what sex *doesn't* mean to the Aquarius man, and that is 'love'. Sex and love are very separate things to the Aquarius man. He is perfectly capable of love and he is as interested in sex as any man but there is no danger of him confusing and conflating the two. This can be difficult for women who view sex as a kind of milestone in a loving relationship, a physical manifestation of love.

For the Aquarius man, this simply isn't the case. He can love someone and not have sex with them and he can have sex with someone he doesn't love. Suggesting to an Aquarius man that love and sex are in anyway synonymous will be greeted with as much bafflement as suggesting a chimpanzee is a great substitute for a bicycle. For the Aquarius man, sex is an enjoyable activity that stimulates his body, intellect and imagination, but not his emotions.

What's in it for You?

Firstly, if you're after a no-strings-attached one-night-stand that doesn't leave you with feelings of self-recrimination, the Aquarius man is the perfect companion. He won't lead you on or callously use you, he'll simply view the whole thing as a frivolous bit of fun, treating you with honesty and respect, and seeing you as a co-conspirator in a mischievous exercise in healthy lust.

If however, you're looking to the long-term, the Aquarius man offers a sex life that is fresh, interesting, multilayered and free from confusion, hang-ups, mind games and manipulations. Sex with Aquarius man is a wonderfully free and easy experience.

Curious, open-minded, imaginative and unconventional, the Aquarius man will try anything. He will approach the whole business of stimulating you as a delightful experiment in sensory overload, trying out new ways to bring you to shuddering orgasm. This is not driven by a jaded abandonment of what no longer 'works' for him but is instead a response to the almost childlike constant that is the mantra of the Aquarius man: *I wonder what will happen if I do this?*

So, you can expect to be *thoroughly* explored, every inch of you kissed, licked, nibbled and probed. If there's a particular thing that pushes your buttons, just tell him straight and he'll give it a whirl. Even better, tell him something you've always wanted to try but never had a partner you felt confident in asking and he'll jump at the opportunity.

What Works for Him?

With the Aquarius man, sexual arousal begins in the mind. He'll be turned on as much by the ideas you express as he will be by the look and feel of your naked body. In fact, of all the signs of the zodiac, he is the least interested in looks. He wants to explore what's beneath the surface as much as (and quite possibly more than) the surface itself. That being said, he is still intensely physical, it's just that his physicality is fuelled by a feverish cerebral energy.

Getting him in the mood is easy. Just start talking about sex. You can be blunt and open; he is almost impossible to shock or offend. Asking him what his top five sexual positions are will not elicit stutters and blushes. He will take the question seriously, giving careful consideration to his answers. And then he'll ask you what you're favourite sexual positions are. It won't be long before things begin to really heat up.

If you're not confident initiating such a conversation, why not leave a copy of the *Kama Sutra* casually lying around in full view. He's the kind of guy who homes-in on books, curious to see what you're reading. He'll start flipping through it and, within minutes, you'll be deluged with questions.

In fact, any woman wanting to catch and keep an Aquarius man simply *must* have a copy of the *Kama Sutra*. Moreover, they should be intimately familiar with its contents. Vatsyayana's *Kama Sutra*, like the Aquarius man himself, approaches sex as an intellectual and philosophical activity. It is not simply an instruction manual; it is a treatise on sex and sensuality. Your familiarity with this ancient text will announce to him that you are smart, interesting, open and fun.

Talk of sex will inevitably lead to sex, but whereas with other star signs, the sex talk stops when the physical sex begins, the Aquarius man likes to continue this erotic discourse in parallel with the bodily act itself.

Unlike the eager and impatient Aries man, for example, the Aquarius man likes to take his time. Not for him the bathroom quickie. He greatly enjoys foreplay, both in the receiving and in the giving. Cunnilingus holds a particular appeal for him. The fact that he is exploring somewhere dark, mysterious and exotic will arouse him almost as much as it arouses you! He will feel as if he is being given access to the 'secret you', the 'inner you' and he will see this as a genuine privilege.

He will always prefer sex with the lights on, so he can see as well as feel you. Remember this is as much about intellectual curiosity as lust. How can he be expected to learn from this amazing experience if he can't see what's happening?! Similarly, he may express an urge to film the unfolding events. Certainly, if you suggest such a thing, he won't be shocked. Or if he is, it will be in a good way. He likes to be shocked, revels in the unexpected and the previously unexperienced.

He will also like to talk during sex, and he'll like it if you talk, too. However, this doesn't have to be dirty talk (although it may well be). Tell him what you're feeling, what's working for you and what you want him to do next. Ask him if whatever you're doing to him feels good and enquire as to what it is he'd like you to do next. Talk about previous sexual experiences. The Aquarius man is almost entirely immune to jealousy and sexual insecurity. Tales of your previous escapades will intrigue him and turn him on. Any form of education is sexy to the Aquarius man.

In relation to this last point, it's worth mentioning the always-sensitive subject of age. Because the Aquarius man values knowledge, learning and experience, he will make the perfect partner (sexual or otherwise) for the more mature woman. He is also less enamoured of physical appearances than most men and will not tend to notice that things aren't necessarily as firm as they once were and the inevitable Southward drift is beginning to make its inevitable presence felt. Wrinkles and grey hairs are similarly irrelevant. In fact, he may even find these things highly erotic. A sagging breast, less than flat stomachs and other signs of the passing of the years are indicators of experience and, as such, are inherently fascinating. That being said, he's more than happy to 'learn together' with some fresh-faced virgin, but, if we're being completely honest, the experienced woman definitely holds the upper hand. Whereas society looks down upon the woman who is sexually intrepid, coining words such as 'slut' to attempt to contain these daring and instinctive individuals, the Aquarius man will demonstrate no such

prejudice. A woman who lets her bodily and imaginative urges take her where they will, a woman with a full and varied sexual history will be treated like a rare and exciting volume (or even library!) of captivating eroticism.

As for positions? Well, rather like the Sagittarius man, pretty much anything goes. He'll be quite content to lie with you, flicking through the *Kama Sutra* or any contemporary sex instruction manual and 'shop' for positions as if he were browsing through a home shopping catalogue! However, if you're looking to wow him with something that's sure to push all the right buttons, why not try something I like to call 'The Achilles Feel'.

This position is best achieved from a 'girl on top' starting point, with your Aquarius man lying down. Stretch your arms out behind you, placing them either side of his knees and gradually arch backwards. You should slow things down for this manoeuvre as if it is performed too quickly it can give him quite a shock. Use your pelvic muscles to grip his penis. This will stimulate him but also ensure he doesn't pop out! Now, grip his ankles and move his legs apart, then arch back further until you are settled between his legs.

The ankles are the Aquarius man's erogenous zone, so this will be a double whammy for him, as you grip them tightly, gently rubbing your fingertips up and down his Achilles tendons. Keep in mind that this is not a position suited to vigorous thrusting, given the angle of penetration. So, you will be relying on the action of your vaginal muscles to do the lion's share of the work. This slow, subtle and unusual experience will delight the Aquarius man and will also put you fully in control of the whole show! Remember, for him the journey is as important as the destination (sometimes more so) and he'll be more than happy to take his time getting there. What's more, if he place a pillow under his head, he'll be able to look down and see your vagina as you work your magic. Something that will very much appeal to the 'lights-on' Aquarius man. Given the complexity of this position, it may be necessary to explain what you're doing as you do it or even discuss it beforehand. Whereas this might be something of a passion-killer for many men of the zodiac, for the Aquarius man this is an educational bonus.

The One Thing You Must Do

Teach him a thing or two!

The One Thing You Mustn't Do

Be conservative.
