# INTRODUCTION

## *Sex.*

It's a fundamental human requirement, right up there with food, water and a decent wi-fi signal. Like food and drink, it straddles the territories of *need* and *want*, laying equal claim to both. As with food and drink, it isn't enough to simply *have* sex it needs to satisfy certain criteria. This criteria will vary from person to person. There are doubtless things that turn you on that would have little or no effect on someone else. What drives you wild may leave another woman cold or send her screaming from the room.

And so it is with the various and varied men of the zodiac. What might set the heart of a Capricorn man racing may well give the Gemini man entirely the wrong kind of goosebumps. The purpose of this book is to help you induce the *right kind* of quivers and shivers in your man, from Aries to Pisces, and to ensure you receive a plentiful supply of quivers and shivers yourself.

I'll warn you right now that this is a forthright and unflinching book. It certainly isn't for the prudish. Let's face it, there's no point talking about sex unless we're going to be frank. In the interest of clarity, I'll will be calling a clitoris a clitoris, a penis a penis and so on. There will be no references to 'love buds' and 'passion rods'. I suspect you'll be relieved by this disclosure. But if you prefer talk of 'flowers' and such, it's probably not too late to request a refund.

Each chapter will be broken down into three sections:

*Overview*

*What Does Sex Mean to the Aries Man [for example]?*

*What's in it for You?*

*What Works for Him?*

Then each chapter is topped off with advice on *The One Thing You Must Do* and *The One Thing You Mustn't Do*.

## **Overview**

This is the only point in each chapter where I *won't* be talking about sex. And that's a promise! Here I'll be looking at the whole person, his personality, what

he likes and dislikes, what drives him, what ignites his interest, what's great about him and what's downright infuriating.

Although I imagine most men will be perfectly happy to be seen exclusively as a sex object, women, on the whole, are big fans of context. And rightly so. Nothing exists in a vacuum, and any attempt to explore the sexual life of a man will be half-baked at best if we don't first attempt to shine a light on his non-sexual life. But don't worry; given that most men think about sex almost all of the time, anyway, this segment of each chapter is going to be pretty short. What the heck, feel free to skip it entirely!

### **What Does Sex Mean to the [insert star sign here] Man**

Here, I'll be exploring the various zodiac males' attitudes to sex. Is sex just a recreational activity for him, is it all about conquest, a bit of fun or is it inextricably bound-up with love and romance? Once you're privy to this information, you'll be able to see if his attitudes are aligned with your own or whether you're faced with something of a challenge. You might even find something here which you can exploit in some way to your own sensual ends, such as the Cancer man's eagerness to please!

### **What's in it for You?**

As editor of *The Astrology of Love* website, I receive any number of emails on the topic of men, sex and star signs, but by far the most common is this one: *is he any good in bed?* It's a tricky one to answer because it's such a vague question. So here I'll be trying to cover all the bases in relation to this sweeping enquiry. I'll be looking at his endurance, his technique, how thoughtful he is and, ultimately, whether or not he's going to deliver you breathless and satisfied to your desired destination. Sorry, I said I was going to be frank. This section tells you if your man is capable of getting you to orgasm. And, if not, what you can do to 'fix' him.

### **What's in it for him?**

This section of each chapter relates to the second most common question I receive as editor of *The Astrology of Love* website. Namely, *how do I turn him on?* Could be you're thinking, As long as the *What's in it for me?* bit meets my requirements I couldn't care less! If you're feeling a little more generous, however, here you'll find information concerning what is likely to initiate his ardour, such as what clothing and perfume to wear. More to the point, in this section I'll tell you about

your man's erogenous zones, the kinds of things you can do or say to really get his blood pumping, whether he has any unusual kinks and what sexual positions are guaranteed to drive him wild. With pictures!

### **The One Thing You Must Do and the One Thing You Mustn't Do**

This consists of just two brief sentences. The one thing you categorically must do and the one thing you categorically must not!

## A WORD OF CAUTION

Astrology can be an extremely useful and powerful means of forming a picture of your intended paramour. Is he a fiery Scorpio, a kinky Gemini or a vigorous Aries? However, it's important to bear in mind that there can be a lot more to a man than the constellation under which he happened to be born.

Few people pass through life without being subjected to the potent and unpredictable forces of chaos. Put simply: things happen to people. Most of these things are of little or no significance but sometimes people are exposed to events and forces that are truly and powerfully transformative. And this is when you find yourself confronted with the shy and retiring Leo, the reckless Capricorn, the uncaring Cancer, the cold and unemotional Pisces.

This is a rather long-winded way of advising you to tread a little carefully and don't simply assume that because a guy was born on November 5th, he's going to respond to your advances like a wild animal. Do a little research first. Get to know the guy. Take his sensual temperature, as it were. To quote the great American poet, Robert Frost, "Don't ever take a fence down until you know why it was put up."

## A SECOND WORD OF CAUTION

Although this guide teaches you the tricks, techniques and trade secrets of 'wowing' your man in bed, I wouldn't want you to think that I'm suggesting you kneel at the altar of your man's sexual needs, making your body and your *self* subservient to the requirements of his libido.

This guide is really about *you*. About *your* sensuality. This guide wants you to feel sexy and confident. This guide wants to put *you* in control of *your* sex life.

So, with that in mind, I want to make a few suggestions.

(Now, if you're a woman who already knows her own mind, her own body and is fully conversant with the strange and exhilarating hot zone where the two meet, feel free to skip this bit.)

1. Before going to bed with a man, ask yourself, are you *absolutely* certain this is what *you* want to do? If you feel in anyway pressured or uneasy about taking things to the next level, then don't rush things. Wait until you're ready. Any guy worth a dime is going to respect your feelings. If he makes for the door, then good riddance to bad rubbish. He isn't the kind of guy you need in your life.

2. Despite the fact that sex is an inordinate amount of fun, it can have serious consequences. Please remember to take all necessary precautions against unwanted pregnancy and sexually transmitted disease. Sorry to sound like a cross between your mom, a high school teacher and a worldly nun, but it needs to be said.

3. Don't put yourself under too much pressure. Sex should be a pleasurable experience. You shouldn't feel as if you're taking a test. Relax. Enjoy yourself. And, remember, practice makes perfect. If at first you don't succeed, try, try again.

4. Talk to your friends and family. Sex is a near-universal activity. Pretty much everyone does it. If you have doubts, anxieties and insecurities, it really does help to share. You'll be surprised just how many vivacious 'women of the world' have disastrous and embarrassing sexual experiences in their past. These incidents will almost always be filed under 'I Can Laugh About It Now...' Once you realise that sex is largely a matter of trial and error, and that few people engage in it without a certain amount of nervousness, you'll feel a lot more relaxed.

5. Each chapter contains a section entitled 'What's in it for You?'. This is a question that should be foremost in your mind when it comes to matters of the flesh. You're not a sex aid. You're a human being with complex sexual desires of your own. Make sure *you're* satisfied.

Good luck.

And enjoy.

# SEX AND THE CANCER MAN

## An Overview

The Cancer man is the ultimate in low maintenance. He loves to cook, clean and look after you. He is extremely well-domesticated and house-proud. For the Cancer man, housework isn't a chore, it's a leisure activity.

The Cancer man can be a little shy and insecure at first, but once you coax him out of his shell, he is extremely loving, generous, attentive and loyal.

## What does Sex Mean to the Cancer Man?

In many respects, the Cancer man is the polar opposite of the Gemini man when it comes to matters of the flesh. The Cancer man isn't keen on experimentation. He likes his sex simple and wholesome. To the Cancer man, sex is an expression of love and not simply a carnal act in its own right. He likes to feel safe and secure when it comes to sex and so prefers the comfort and familiarity of his own bed.

## What's in it for You?

There is little likelihood of the Cancer man using you. He doesn't 'have sex', he 'makes love'. Sex is simply the physical and erotic manifestation of affection. The one-night-stand Cancer man is a rare thing indeed. So, if you're getting more than a little tired of hit-and-run guys, you've nothing to worry about with the Cancer man. When it comes to relationships, this one has staying power.

Sex with the Cancer man is almost always a satisfying experience for his partner as he is naturally empathetic, with an intuitive understanding of your needs. Sex for the Cancer man is something of a devotional act, wrapped in emotion. Ultimately, he just wants you to be happy.

It's a widely accepted that the Cancer man can be something of a mother's boy and this can manifest as an oral fixation (paging Doctor Freud!). However, this can be great for the woman in his life (whom he will treasure *almost* as much as his mother) as he loves kissing. More to the point, he will love to put his mouth to work all over your body. So, if you're looking for a man who's only too willing to put lips and tongue to work servicing your labia and clitoris, look no further.

All that being said, hygiene is important to him, so he's unlikely to venture below your waist if you've just come back from the gym! Straight after a hot bath, however, when you're scrubbed clean, looking all fresh and innocent, he'll be salivating with anticipation. The Cancer man does need leading, however, so you may have to gently push his head down to where you want him to get to work!

## What Works for Him?

First and foremost, *nothing* is going to work for the Cancer man unless he is at ease. Put simply, he won't be able to rise to the occasion unless he's comfortable with you and your surroundings. For this reason, it's almost certainly going to be his place and not yours. For the same reasons, it's the chances of this taking place after a first date (or even a second, third or fourth date!) is vanishingly remote.

So, let's assume your Cancer man is precisely that: *your* Cancer man. You're in his apartment. You're wearing the kind of fresh, floral, almost-edible perfume he loves. You've probably finished a meal he's cooked and now you're both onto your second glass of wine. The conversation is flowing easily and you've got to that stage where you're telling him things you've never told anybody else. You touch his hand and there's a little *zing*. At this point, most guys would cut straight to the lean-in. But this is the Cancer man. *You're* going to have to go for the lean-in. Don't worry, he isn't going to recoil. He just isn't good at first moves. The kiss will be go just fine. Better than fine: the Cancer man is a good kisser. But, again, at this point, most men will be thinking about moving things up a level. Not the Cancer man. He'll be content to just keep on kissing. I'm afraid it's up to you to make the play for second base!

The Cancer man's erogenous zone is his chest and, more specifically, his nipples (so, *that's* what men's nipples are for!). If you place your hands flat against his chest, he'll start to get the message (or massage). Gently caress his chest. You may well feel his nipples harden. Keep caressing as you kiss. Dig your fingers in a little; the Cancer man likes a strong, dominant women.

So, now your Cancer man is aroused. This doesn't mean he's going to let his hormones do his thinking for him. He won't assume just because you're touching his chest that he can touch yours! You're probably going to have to try something a little more direct. Slide your hands down to his hips then round to his butt. Give it a gentle but firm squeeze. At this point, there should be no doubt in *his* mind what's on *your* mind. If he's still not receiving you loud and clear, increase the intensity of your kiss (remember, the Cancer man is *very* oral) and make all the right noises.

In terms of sexual positions, doggy style is generally a no-no for the Cancer man. Not because he finds it in any way bestial but because, for him, sex is an emotional thing and he'll want to be face-to-face, looking into your eyes as you look into his. So, don't be afraid to plump for the good ole missionary position;

this will work just fine for the Cancer man. In fact, if we're talking about the first time, with your Cancer man, then the missionary position is probably your safest bet, as it will be well within his all-important comfort zone.

However, if you're looking for something a little different, something he's unlikely to forget in a hurry, why not try a position I like to call The Pincer Movement. This easy to achieve position successfully and sensually addresses two of the Cancer man's chief peccadilloes: the sensitivity of his chest and his appreciation of strong, even dominating, women.

For this position, you lie down on your back, with your legs together and your knees pulled up toward your chest. Kneeling facing you, your Cancer man enters you. You place one foot flat on his chest, stimulating this area of prime erogenous real estate with your toes. Your other leg curls around his waist, your heel resting against the small of his back, the top of his buttocks. With this leg, you can pull your man toward you, taking control and encouraging deeper penetration. The 'angle of approach' here is perfect for providing maximum stimulation to your G-spot, by the way. So: win-win!

Another advantage to this position is that you can easily segue into it from the comfortable Cancer-centric missionary position, rather than having to provide complex instructions and risk jeopardising 'the moment'. It also allows for plenty of face-to-face, eye-to-eye contact, increasing the levels of intimacy.

Whatever you do, make sure you let him know what's working for you because the Cancer man has a great memory and is something of a perfectionist. He'll be taking mental notes the whole time, so that next time he knows exactly what buttons to push. Consequently, sex with the Cancer man tends to get better and better!

What happens after sex is almost as important as the sex itself to the Cancer man. As I suggested earlier, he's not the hit-and-run type. He'll want to cuddle and talk. As a water sign and a bit of a hygiene nut, he's very likely to take you up on the suggestion of a shared shower, too.
