INTRODUCTION

Sex.

It's a fundamental human requirement, right up there with food, water and a decent wi-fi signal. Like food and drink, it straddles the territories of *need* and *want*, laying equal claim to both. As with food and drink, it isn't enough to simply *have* sex it needs to satisfy certain criteria. This criteria will vary from person to person. There are doubtless things that turn you on that would have little or no effect on someone else. What drives you wild may leave another woman cold or send her screaming from the room.

And so it is with the various and varied men of the zodiac. What might set the heart of a Capricorn man racing may well give the Gemini man entirely the wrong kind of goosebumps. The purpose of this book is to help you induce the *right kind* of quivers and shivers in your man, from Aries to Pisces, and to ensure you receive a plentiful supply of quivers and shivers yourself.

I'll warn you right now that this is a forthright and unflinching book. It certainly isn't for the prudish. Let's face it, there's no point talking about sex unless we're going to be frank. In the interest of clarity, I'll will be calling a clitoris a clitoris, a penis a penis and so on. There will be no references to 'love buds' and 'passion rods'. I suspect you'll be relieved by this disclosure. But if you prefer talk of 'flowers' and such, it's probably not too late to request a refund.

Each chapter will be broken down into three sections:

Overview

What Does Sex Mean to the Aries Man [for example]?

What's in it for You?

What Works for Him?

Then each chapter is topped off with advice on *The One Thing You Must Do* and *The One Thing You Mustn't Do*.

Overview

This is the only point in each chapter where I *won't* be talking about sex. And that's a promise! Here I'll be looking at the whole person, his personality, what

he likes and dislikes, what drives him, what ignites his interest, what's great about him and what's downright infuriating.

Although I imagine most men will be perfectly happy to be seen exclusively as a sex object, women, on the whole, are big fans of context. And rightly so. Nothing exists in a vacuum, and any attempt to explore the sexual life of a man will be half-baked at best if we don't first attempt to shine a light on his non-sexual life. But don't worry; given that most men think about sex almost all of the time, anyway, this segment of each chapter is going to be pretty short. What the heck, feel free to skip it entirely!

What Does Sex Mean to the [insert star sign here] Man

Here, I'll be exploring the various zodiac males' attitudes to sex. Is sex just a recreational activity for him, is it all about conquest, a bit of fun or is it inextricably bound-up with love and romance? Once you're privy to this information, you'll be able to see if his attitudes are aligned with your own or whether you're faced with something of a challenge. You might even find something here which you can exploit in some way to your own sensual ends, such as the Cancer man's eagerness to please!

What's in it for You?

As editor of *The Astrology of Love* website, I receive any number of emails on the topic of men, sex and star signs, but by far the most common is this one: *is he any good in bed?* It's a tricky one to answer because it's such a vague question. So here I'll be trying to cover all the bases in relation to this sweeping enquiry. I'll be looking at his endurance, his technique, how thoughtful he is and, ultimately, whether or not he's going to deliver you breathless and satisfied to your desired destination. Sorry, I said I was going to be frank. This section tells you if your man is capable of getting you to orgasm. And, if not, what you can do to 'fix' him.

What's in it for him?

This section of each chapter relates to the second most common question I receive as editor of *The Astrology of Love* website. Namely, *how do I turn him on?* Could be you're thinking, As long as the *What's in it for me?* bit meets my requirements I couldn't care less! If you're feeling a little more generous, however, here you'll find information concerning what is likely to initiate his ardour, such as what clothing and perfume to wear. More to the point, in this section I'll tell you about

your man's erogenous zones, the kinds of things you can do or say to really get his blood pumping, whether he has any unusual kinks and what sexual positions are guaranteed to drive him wild. With pictures!

The One Thing You Must Do and the One Thing You Mustn't Do

This consists of just two brief sentences. The one thing you categorically must do and the one thing you categorically must not!

A WORD OF CAUTION

Astrology can be an extremely useful and powerful means of forming a picture of your intended paramour. Is he a fiery Scorpio, a kinky Gemini or a vigorous Aries? However, it's important to bear in mind that there can be a lot more to a man than the constellation under which he happened to be born.

Few people pass through life without being subjected to the potent and unpredictable forces of chaos. Put simply: things happen to people. Most of these things are of little or no significance but sometimes people are exposed to events and forces that are truly and powerfully transformative. And this is when you find yourself confronted with the shy and retiring Leo, the reckless Capricorn, the uncaring Cancer, the cold and unemotional Pisces.

This is a rather long-winded way of advising you to tread a little carefully and don't simply assume that because a guy was born on November 5th, he's going to respond to your advances like a wild animal. Do a little research first. Get to know the guy. Take his sensual temperature, as it were. To quote the great American poet, Robert Frost, "Don't ever take a fence down until you know why it was put up."

A SECOND WORD OF CAUTION

Although this guide teaches you the tricks, techniques and trade secrets of 'wowing' your man in bed, I wouldn't want you to think that I'm suggesting you kneel at the altar of your man's sexual needs, making your body and your *self* subservient to the requirements of his libido.

This guide is really about *you*. About *your* sensuality. This guide wants you to feel sexy and confident. This guide wants to put *you* in control of *your* sex life.

So, with that in mind, I want to make a few suggestions.

(Now, if you're a woman who already knows her own mind, her own body and is fully conversant with the strange and exhilarating hot zone where the two meet, feel free to skip this bit.)

1. Before going to bed with a man, ask yourself, are you *absolutely* certain this is what *you* want to do? If you feel in anyway pressured or uneasy about taking things to the next level, then don't rush things. Wait until you're ready. Any guy worth a dime is going to respect your feelings. If he makes for the door, then good riddance to bad rubbish. He isn't the kind of guy you need in your life.

2. Despite the fact that sex is an inordinate amount of fun, it can have serious consequences. Please remember to take all necessary precautions against unwanted pregnancy and sexually transmitted disease. Sorry to sound like a cross between your mom, a high school teacher and a worldly nun, but it needs to be said.

3. Don't put yourself under too much pressure. Sex should be a pleasurable experience. You shouldn't feel as if you're taking a test. Relax. Enjoy yourself. And, remember, practice makes perfect. If at first you don't succeed, try, try again.

4. Talk to your friends and family. Sex is a near-universal activity. Pretty much everyone does it. If you have doubts, anxieties and insecurities, it really does help to share. You'll be surprised just how many vivacious 'women of the world' have disastrous and embarrassing sexual experiences in their past. These incidents will almost always be filed under 'I Can Laugh About It Now...' Once you realise that sex is largely a matter of trial and error, and that few people engage in it without a certain amount of nervousness, you'll feel a lot more relaxed.

5. Each chapter contains a section entitled 'What's in it for You?'. This is a question that should be foremost in your mind when it comes to matters of the flesh. You're not a sex aid. You're a human being with complex sexual desires of your own. Make sure *you're* satisfied.

Good luck.

And enjoy.

SEX AND THE SAGITTARIUS MAN

An Overview

The Sagittarius man is one of life's adventurers, ever the explorer, ever the thrill-seeker. His mantras are "I'll try anything once!" and "What's the worst that can happen?" He is almost impossible to control, an unmanageable whirlwind of open-minded experimentation and discovery, both physical and spiritual. Paradoxically, the only thing that controls the Sagittarius man is Spontaneity.

If impulsiveness is his superpower then it kind of goes without saying that routine is his Kryptonite. The moment he feels his life is getting into a rut or that circumstances (or, indeed, people) are in any way restraining him, he'll run for the hills. And, with the Sagittarius man, that isn't just an turn of phrase; he will put on his walking boots and backpack and head off to Gangkhar Puensum, Bhutan.

What does Sex Mean to the Sagittarius Man?

Sex, like everything in the Sagittarius man's whirl of a world is all about adventure, exploration and experimentation. He doesn't see sex as a romantic exercise or as an expression of love. It is simply something to be experienced. Just as he is keen to see the sights and experience the scents and tastes of some exotic, far-off land, so he will be eager to explore your body, its mysteries and hidden places. There is nowhere he won't go and nothing he won't do. Of all the signs of the zodiac, the Sagittarian male is the most broad-minded and liberal, with a healthy dose of curiosity.

What's in it for You?

What's in it for you? Well, in a nutshell, whatever you want. Like I said a moment ago: there's nowhere he won't go and nothing he won't do. The Sagittarius man is an explorer and an adventurer at heart, so there's no part of your body he won't be eager to investigate with hands, lips and tongue. Physicality is important to him; the way your body looks, feels and even tastes will be source of interest and excitement to him.

But it isn't all about the physical. The Sagittarius man also likes to explore the inner worlds of the intellect and imagination. He's turned on by intelligence and creativity as much as (and in some cases more than) curves and flesh. This means you're looking at a partner who will not only indulge your fantasies but will add to and enrich them.

What Works for Him?

So long as he is exploring new territory and experiencing new things, the Sagittarius man will remain fully engaged. But don't worry, that doesn't mean he will soon tire of a partner. He is more than capable of forming monogamous relationships, so long as his life partner continues to stimulate him. This doesn't mean you have to invent a new sexual position every time he gets an erection! The Sagittarius man is very receptive to *subtle* change. A slight change in mood will create a radically different sexual experience for him. Even missionary position sex will excite him if your behaviour alters a little. If, for example, you act a little more aggressively, digging your nails into his buttocks or biting his shoulder or pulling his hair, he will respond as if you've just unearthed a previously undiscovered chapter of the Kama Sutra. Equally, being a little more submissive or playful or intense will serve to create a new situation.

Similarly, a change of location will push his buttons. It doesn't have to be anything particularly exotic or outlandish (although, he certainly won't say no to a urgent sex in a tent at the foot of an unstable volcano), just somewhere different. Doggy-style over the kitchen table is location change enough to set his pulse pounding.

When it comes to the Sagittarius man, it definitely pays to do your homework. He responds positively to knowledge and experience. So, the more comprehensive your mental library of carnal know-how, the better. This is one of the reasons the Sagittarius man is likely to gravitate toward the older woman. The cougar holds a particular fascination for him. Uncertainty and a lack of confidence can be a bit of a turn-off for him, so make sure you enter the sexual arena fully prepared. Even if you don't really know what you're doing, act as if you do. He doesn't need to know you're winging it!

Seducing the Sagittarius man is easy. In fact, there really isn't any need for much in the way of seduction. He is very forthright and honest. If he wants sex, he'll let you know in no uncertain terms. He appreciates women who are similarly direct, so there's no need to hint, suggest or insinuate. Just tell him you want him. Job done. He is an incredibly spontaneous character and reacts badly to anything that is planned or scheduled. Don't give him the impression that things are leading toward sex, as sex then becomes a predictable outcome. Spring it on him when he's least expecting it. If he's at your place and you're watching a movie, don't make any gradual moves. Just turn off the TV when he appears most engrossed in the movie and start to undress. He'll be delighted. The more he *doesn't* see it coming, the better. Or you could leave the room for a moment, under some

pretence (getting more popcorn), then return in just your underwear.

Although, as I suspect I've made abundantly clear, there is no such thing as a sexual position the Sagittarius man is unwilling to try, here's one that will guarantee him a memorable experience, leaving him eager to find out what else you might have in store for him. I call it 'Ys and Thighs'.

Start with oral sex. The Sagittarius man, enjoys oral sex. The clue is in the word 'man'. However, there's an added dimension for the Sagittarian. His erogenous zones are his thighs. So, he'll enjoy the sensation of your face pushing against his thighs as you make your way toward his penis. Kiss his thighs en route and you're certain to hear him moan with delight. But if you really want to drive him wild, move your breasts against his thighs. The sensation of an erect nipple gently probing at this highly sensitised area will have him melting into a pool of pure arousal.

This position starts out as straight forward missionary sex. At some point during proceedings, place your hands flat against his chest and push him up and away from you, so he is rearing up above you. Spread your legs into an expansive Y. You can ask him to hold your ankles (it's a lot harder maintaining this position without the physical help of your partner than you might think!). You can now reach under your raised thighs to get your hands on his erogenous zones. If you're feeling particularly bold, you can use just one hand to stimulate his thigh and use the other to stimulate yourself.

This position is perfect for the Sagittarius man. One: it focuses on his thighs. Two: it's a decidedly 'brazen' position, demonstrating confidence and experience. Three: it's unconventional.

If you really want to go for broke, however (and this may be something you hold back for a later sexual encounter), consider using toys. Not all men like the introduction of sex toys into their lovemaking. They can be threatened by them, interpreting their use as a slight to their sexual prowess. The vibrator or dildo can be seen as a competitor or, in the worst case scenario as something that makes their own genitals seem redundant. Not so with the Sagittarius man. He's fine with sex toys.

Ys and Thighs is a whole new ball game with the addition of a robust and powerful vibrator! The very fact that you own a vibrator will send a very strong message to your Sagittarian man. It will say, *I am a woman who knows her own body. I*

am a woman who demands satisfaction. I am a woman who is unashamed of her desires. This is the behaviour of a mature woman, not a giggling girl. Even if you are young in years, you'll be transmitting strong signals of unadulterated womanhood.

You can run the vibrator over those all-too-sensitive thighs of his, then, as he thrusts into you, place the vibrator against your mons and clitoris. The oscillations will transfer to his penis with incredible results. A word of warning: don't do this until you're ready to come as it may well bring everything to a juddering halt!
