INTRODUCTION

Sex.

It's a fundamental human requirement, right up there with food, water and a decent wi-fi signal. Like food and drink, it straddles the territories of *need* and *want*, laying equal claim to both. As with food and drink, it isn't enough to simply *have* sex it needs to satisfy certain criteria. This criteria will vary from person to person. There are doubtless things that turn you on that would have little or no effect on someone else. What drives you wild may leave another woman cold or send her screaming from the room.

And so it is with the various and varied men of the zodiac. What might set the heart of a Capricorn man racing may well give the Gemini man entirely the wrong kind of goosebumps. The purpose of this book is to help you induce the *right kind* of quivers and shivers in your man, from Aries to Pisces, and to ensure you receive a plentiful supply of quivers and shivers yourself.

I'll warn you right now that this is a forthright and unflinching book. It certainly isn't for the prudish. Let's face it, there's no point talking about sex unless we're going to be frank. In the interest of clarity, I'll will be calling a clitoris a clitoris, a penis a penis and so on. There will be no references to 'love buds' and 'passion rods'. I suspect you'll be relieved by this disclosure. But if you prefer talk of 'flowers' and such, it's probably not too late to request a refund.

Each chapter will be broken down into three sections:

Overview

What Does Sex Mean to the Aries Man [for example]?

What's in it for You?

What Works for Him?

Then each chapter is topped off with advice on *The One Thing You Must Do* and *The One Thing You Mustn't Do*.

Overview

This is the only point in each chapter where I *won't* be talking about sex. And that's a promise! Here I'll be looking at the whole person, his personality, what

he likes and dislikes, what drives him, what ignites his interest, what's great about him and what's downright infuriating.

Although I imagine most men will be perfectly happy to be seen exclusively as a sex object, women, on the whole, are big fans of context. And rightly so. Nothing exists in a vacuum, and any attempt to explore the sexual life of a man will be half-baked at best if we don't first attempt to shine a light on his non-sexual life. But don't worry; given that most men think about sex almost all of the time, anyway, this segment of each chapter is going to be pretty short. What the heck, feel free to skip it entirely!

What Does Sex Mean to the [insert star sign here] Man

Here, I'll be exploring the various zodiac males' attitudes to sex. Is sex just a recreational activity for him, is it all about conquest, a bit of fun or is it inextricably bound-up with love and romance? Once you're privy to this information, you'll be able to see if his attitudes are aligned with your own or whether you're faced with something of a challenge. You might even find something here which you can exploit in some way to your own sensual ends, such as the Cancer man's eagerness to please!

What's in it for You?

As editor of *The Astrology of Love* website, I receive any number of emails on the topic of men, sex and star signs, but by far the most common is this one: *is he any good in bed?* It's a tricky one to answer because it's such a vague question. So here I'll be trying to cover all the bases in relation to this sweeping enquiry. I'll be looking at his endurance, his technique, how thoughtful he is and, ultimately, whether or not he's going to deliver you breathless and satisfied to your desired destination. Sorry, I said I was going to be frank. This section tells you if your man is capable of getting you to orgasm. And, if not, what you can do to 'fix' him.

What's in it for him?

This section of each chapter relates to the second most common question I receive as editor of *The Astrology of Love* website. Namely, *how do I turn him on?* Could be you're thinking, As long as the *What's in it for me?* bit meets my requirements I couldn't care less! If you're feeling a little more generous, however, here you'll find information concerning what is likely to initiate his ardour, such as what clothing and perfume to wear. More to the point, in this section I'll tell you about

your man's erogenous zones, the kinds of things you can do or say to really get his blood pumping, whether he has any unusual kinks and what sexual positions are guaranteed to drive him wild. With pictures!

The One Thing You Must Do and the One Thing You Mustn't Do

This consists of just two brief sentences. The one thing you categorically must do and the one thing you categorically must not!

A WORD OF CAUTION

Astrology can be an extremely useful and powerful means of forming a picture of your intended paramour. Is he a fiery Scorpio, a kinky Gemini or a vigorous Aries? However, it's important to bear in mind that there can be a lot more to a man than the constellation under which he happened to be born.

Few people pass through life without being subjected to the potent and unpredictable forces of chaos. Put simply: things happen to people. Most of these things are of little or no significance but sometimes people are exposed to events and forces that are truly and powerfully transformative. And this is when you find yourself confronted with the shy and retiring Leo, the reckless Capricorn, the uncaring Cancer, the cold and unemotional Pisces.

This is a rather long-winded way of advising you to tread a little carefully and don't simply assume that because a guy was born on November 5th, he's going to respond to your advances like a wild animal. Do a little research first. Get to know the guy. Take his sensual temperature, as it were. To quote the great American poet, Robert Frost, "Don't ever take a fence down until you know why it was put up."

A SECOND WORD OF CAUTION

Although this guide teaches you the tricks, techniques and trade secrets of 'wowing' your man in bed, I wouldn't want you to think that I'm suggesting you kneel at the altar of your man's sexual needs, making your body and your *self* subservient to the requirements of his libido.

This guide is really about *you*. About *your* sensuality. This guide wants you to feel sexy and confident. This guide wants to put *you* in control of *your* sex life.

So, with that in mind, I want to make a few suggestions.

(Now, if you're a woman who already knows her own mind, her own body and is fully conversant with the strange and exhilarating hot zone where the two meet, feel free to skip this bit.)

1. Before going to bed with a man, ask yourself, are you *absolutely* certain this is what *you* want to do? If you feel in anyway pressured or uneasy about taking things to the next level, then don't rush things. Wait until you're ready. Any guy worth a dime is going to respect your feelings. If he makes for the door, then good riddance to bad rubbish. He isn't the kind of guy you need in your life.

2. Despite the fact that sex is an inordinate amount of fun, it can have serious consequences. Please remember to take all necessary precautions against unwanted pregnancy and sexually transmitted disease. Sorry to sound like a cross between your mom, a high school teacher and a worldly nun, but it needs to be said.

3. Don't put yourself under too much pressure. Sex should be a pleasurable experience. You shouldn't feel as if you're taking a test. Relax. Enjoy yourself. And, remember, practice makes perfect. If at first you don't succeed, try, try again.

4. Talk to your friends and family. Sex is a near-universal activity. Pretty much everyone does it. If you have doubts, anxieties and insecurities, it really does help to share. You'll be surprised just how many vivacious 'women of the world' have disastrous and embarrassing sexual experiences in their past. These incidents will almost always be filed under 'I Can Laugh About It Now...' Once you realise that sex is largely a matter of trial and error, and that few people engage in it without a certain amount of nervousness, you'll feel a lot more relaxed.

5. Each chapter contains a section entitled 'What's in it for You?'. This is a question that should be foremost in your mind when it comes to matters of the flesh. You're not a sex aid. You're a human being with complex sexual desires of your own. Make sure *you're* satisfied.

Good luck.

And enjoy.

SEX AND THE SCORPIO MAN

An Overview

The one word that comes up time and again when discussions turn to the Scorpio man, is 'passion'. A true fire sign, the Scorpio man has passion in spades. He is the volcano of the zodiac. He is practically incapable of frivolity. Everything he does he does with seriousness, zeal and determination. But don't mistake volcanic passions for a lack of control. The Scorpio man likes to be in control of all aspects of his life, including his relationships. Chaos, disruption and mess are anathema to him.

If you're looking for someone intense and commanding, someone who, perhaps, will 'take you in hand', then look no further than the Scorpio man.

What does Sex Mean to the Scorpio Man?

Of all the signs of the zodiac, the Scorpio man is the one most immediately connected with sex. Sex is not optional for the Scorpio man. He needs sex the way most people need food, water and shelter. It is absolutely essential to him. If sex is something to which you have a take-it-or-leave-it approach, the Scorpio man will not be sticking around for long. He needs a partner who is almost always ready to make love. And he needs a partner for whom sex is a keen interest and central pleasure, someone who will very much *participate* in the proceedings. Not for the Scorpio man the woman who simply lies back and thinks of England!

Sex is a thing in itself for the Scorpio man. It is never confused with love, affection or anything else. Sex is sex, plain and simple. He is perfectly capable of having sex with someone for whom he has few feelings. Or no feelings at all. Or even somebody he actively dislikes.

If you're looking for a one-night-stand, the Scorpio man is up for it. However, he can be possessive and has a tendency toward jealousy, so things can become a little complex afterwards. Until he sets his sights on the next in line.

Scorpio men are perfectly capable of deep, loving, long-term monogamous relationships. But only if you can match him blow-for-blow for passion, and keep him supplied with a plentiful supply of fiery, varied and interesting sex!

What's in it for You?

If you love sex, need sex, can't go more than an hour without thinking about sex, then the Scorpio man is definitely for you. His sexual appetite is virtually

inexhaustible. The chances of him spurning your lusty advances with a feeble “I’m really not in the mood” is vanishingly remote. What’s more, if you can match his sexual energy and equal or exceed his enthusiasm for matters of the flesh, you’ll have a true partner for life. The partners of Scorpio men frequently find that it is sex that bonds them together, the knowledge that nobody else us up to the task when it comes to sex.

His enthusiasm for sex isn’t simply a matter of having as much sex as possible. He is a sexual adventurer, a sexual explorer; he is a connoisseur of sex. Quality matters as much as, if not more than quantity. He will collect sexual positions, quirks and kinks the way a nerd collects comic books. This means there is very little he isn’t willing to try. So, if you have a particular thing that pushes your buttons and lights your fire, the Scorpio man will turn his hand to it. Well, maybe not his *hand* exactly!

What Works for Him?

Perhaps a more appropriate question should be *What doesn’t work for him?!* The fact of the matter is that there’s very little you can do in the boudoir that won’t meet with his approval, short of just lying there in a state of semi-catatonic disinterest. He simply can’t bear to have sex with someone who ‘isn’t into it’.

However, given that this book is supposed to be a manual of sorts, it really wouldn’t be fair to have an entire chapter consisting of just one word: *Anything*. So, let’s reach into the fire of the Scorpio man’s sexual furnace and try to pick out a few blazing coals of advice.

There’s no need to seduce the Scorpio man. You won’t need to set the scene, create the right atmosphere or get him in the mood. He’s ready for sex any time, any place. Just say the word. However, if you want to *really, really* get him in the mood, wear something sexy but secretive. By which, I mean something that flatters your curves but doesn’t put everything on display. So rather than a short dress, go for something past the knee but figure hugging. Colours he responds to are white, blue and all shades of purple. Wear a perfume that is exotic but subtle, something with a little heat and spice to it.

As I said earlier, the Scorpio man may be explosive but he still likes to be in control. He’ll prefer to be on top or to take you vigorously from behind. If you prefer to go on top or find it difficult to achieve orgasm unless you’re on top, he isn’t averse to this, especially if you wrestle your way into that position! Once he sees how being on-top seriously lights your fire, he’ll be more than happy for this

to become a regular thing, as your arousal acts as fuel to the fire of *his* arousal.

Although he is intense and unpredictable, this doesn't mean he approves of chaos. Despite his furious sex drive, he may well be turned off by the sight of a messy boudoir! I know it sounds silly but he can't tolerate mess and it might (just might) be enough to throw cold water on his sizzling ardour.

Masks and blindfolds really work for him. The Scorpio man loves mystery almost as much as he loves sex. So, anything that adds a touch of mystery will be welcomed. He also loves sexual roleplay, especially when he really doesn't know where things are going. Even if you've shared a bed for ten years, you can set light to a Scorpio man's ardour by simply pretending to be someone else with a mysterious agenda. He'll love trying to find out who 'you' are and what turns 'you' on. If you use this activity to reveal to him some sexual aspect of yourself of which he was previously unaware, this will greatly increase the impact. For example, if you've always enjoyed a little playful spanking but have been a little reticent to admit to it, this offers you the perfect opportunity to open up your closet and let a fresh breeze blow through it.

A word of warning regarding roleplay. Whilst it's fine for you to pretend to be someone else, it probably isn't a good idea to pretend *he's* someone else. The Scorpio man can be an extremely jealous character. So, if you have a secret yearning to subject George Clooney to the finest blow job he's experienced *in his entire life*, probably best to keep that to yourself. Not saying you can't indulge in that particular fantasy -- you go right ahead -- just don't tell!

Although the Scorpio man likes to be in charge, he doesn't like wimps. This applies in the bedroom, too. So, even though he will want what he wants and when he wants it, don't be too eager to bend to his will. If there's something you don't want to do or something you really, really *want* to do, stand your ground, put up a good fight. He'll respect you for it. What's more, he'll be turned-on too! Even sustained, fearless eye contact can stimulate the Scorpio man. He loves strong, confident women. That being said, he is unlikely to want to be completely dominated, so don't go all Madame Spanky on his ass. Unless, of course, he expressly asks you to!

Don't limit sex to the bedroom. The Scorpio man will love a naughty tumble in the back of a car, a public restroom, a phone booth... just about anywhere in fact. If you don't want to run the risk of being brought-up on charges, why not try different locations in the home, such as the dining room, kitchen or even on the stairs?

The Scorpio man's erogenous zone is his penis. Yes, I know what you're thinking: the Scorpio man and, like, *every other dude on Earth!* But for the Scorpio man the genitals are especially responsive. The slightest contact can result in a roaring erection. Consequently, when it comes to foreplay, oral sex is something of a must for the Scorpio man. The more skilled you are with your tongue and lips, the happier your Scorpio man is going to be.

As for positions, well, pretty much anything goes. He will prefer to be dominant but, as I stated earlier, this isn't by any means an insurmountable obstacle. In fact, it's very 'mountable', if you get my drift. If you really want to give him a sexual experience he'll never forget, why not try 'More, More, More-pio'.

Although this position may seem unusual and a little challenging, it's easy enough to achieve, transitioning as it does from a 'traditional' Reverse Cowgirl (i.e. girl on top with back to guy). During the Reverse Cowgirl, simply place your hands down, palms flat against the bed, taking your weight. Then, pull your legs up and cross them, so you're effectively sat on his lap, with his penis still very much inside you. Gradually, let your pelvis take your weight. This means your centre of gravity forms a straight line from the top of your head down through your vagina and onto his penis. This will result in exceptional penetration. With the penis representing the Scorpio man's erogenous zone, this deeper than usual journey into the inner mystery of your body will be pretty mind-blowing.

You'll find that from this position you can control the motion of your vaginal walls against the shaft of his penis. Even making small 'buttock clenching' motions will send ripples of sensation through his penis.

The fact that your back is to him, will add to the mystery and allow ample opportunity for 'let's pretend'!

The One Thing You Must Do

Add a little mystery.

The One Thing You Mustn't Do

Don't bore him.
