INTRODUCTION

Sex.

It's a fundamental human requirement, right up there with food, water and a decent wi-fi signal. Like food and drink, it straddles the territories of *need* and *want*, laying equal claim to both. As with food and drink, it isn't enough to simply *have* sex it needs to satisfy certain criteria. This criteria will vary from person to person. There are doubtless things that turn you on that would have little or no effect on someone else. What drives you wild may leave another woman cold or send her screaming from the room.

And so it is with the various and varied men of the zodiac. What might set the heart of a Capricorn man racing may well give the Gemini man entirely the wrong kind of goosebumps. The purpose of this book is to help you induce the *right kind* of quivers and shivers in your man, from Aries to Pisces, and to ensure you receive a plentiful supply of quivers and shivers yourself.

I'll warn you right now that this is a forthright and unflinching book. It certainly isn't for the prudish. Let's face it, there's no point talking about sex unless we're going to be frank. In the interest of clarity, I'll will be calling a clitoris a clitoris, a penis a penis and so on. There will be no references to 'love buds' and 'passion rods'. I suspect you'll be relieved by this disclosure. But if you prefer talk of 'flowers' and such, it's probably not too late to request a refund.

Each chapter will be broken down into three sections:

Overview

What Does Sex Mean to the Aries Man [for example]?

What's in it for You?

What Works for Him?

Then each chapter is topped off with advice on *The One Thing You Must Do* and *The One Thing You Mustn't Do*.

Overview

This is the only point in each chapter where I *won't* be talking about sex. And that's a promise! Here I'll be looking at the whole person, his personality, what

he likes and dislikes, what drives him, what ignites his interest, what's great about him and what's downright infuriating.

Although I imagine most men will be perfectly happy to be seen exclusively as a sex object, women, on the whole, are big fans of context. And rightly so. Nothing exists in a vacuum, and any attempt to explore the sexual life of a man will be half-baked at best if we don't first attempt to shine a light on his non-sexual life. But don't worry; given that most men think about sex almost all of the time, anyway, this segment of each chapter is going to be pretty short. What the heck, feel free to skip it entirely!

What Does Sex Mean to the [insert star sign here] Man

Here, I'll be exploring the various zodiac males' attitudes to sex. Is sex just a recreational activity for him, is it all about conquest, a bit of fun or is it inextricably bound-up with love and romance? Once you're privy to this information, you'll be able to see if his attitudes are aligned with your own or whether you're faced with something of a challenge. You might even find something here which you can exploit in some way to your own sensual ends, such as the Cancer man's eagerness to please!

What's in it for You?

As editor of *The Astrology of Love* website, I receive any number of emails on the topic of men, sex and star signs, but by far the most common is this one: *is he any good in bed?* It's a tricky one to answer because it's such a vague question. So here I'll be trying to cover all the bases in relation to this sweeping enquiry. I'll be looking at his endurance, his technique, how thoughtful he is and, ultimately, whether or not he's going to deliver you breathless and satisfied to your desired destination. Sorry, I said I was going to be frank. This section tells you if your man is capable of getting you to orgasm. And, if not, what you can do to 'fix' him.

What's in it for him?

This section of each chapter relates to the second most common question I receive as editor of *The Astrology of Love* website. Namely, *how do I turn him on?* Could be you're thinking, As long as the *What's in it for me?* bit meets my requirements I couldn't care less! If you're feeling a little more generous, however, here you'll find information concerning what is likely to initiate his ardour, such as what clothing and perfume to wear. More to the point, in this section I'll tell you about

your man's erogenous zones, the kinds of things you can do or say to really get his blood pumping, whether he has any unusual kinks and what sexual positions are guaranteed to drive him wild. With pictures!

The One Thing You Must Do and the One Thing You Mustn't Do

This consists of just two brief sentences. The one thing you categorically must do and the one thing you categorically must not!

A WORD OF CAUTION

Astrology can be an extremely useful and powerful means of forming a picture of your intended paramour. Is he a fiery Scorpio, a kinky Gemini or a vigorous Aries? However, it's important to bear in mind that there can be a lot more to a man than the constellation under which he happened to be born.

Few people pass through life without being subjected to the potent and unpredictable forces of chaos. Put simply: things happen to people. Most of these things are of little or no significance but sometimes people are exposed to events and forces that are truly and powerfully transformative. And this is when you find yourself confronted with the shy and retiring Leo, the reckless Capricorn, the uncaring Cancer, the cold and unemotional Pisces.

This is a rather long-winded way of advising you to tread a little carefully and don't simply assume that because a guy was born on November 5th, he's going to respond to your advances like a wild animal. Do a little research first. Get to know the guy. Take his sensual temperature, as it were. To quote the great American poet, Robert Frost, "Don't ever take a fence down until you know why it was put up."

A SECOND WORD OF CAUTION

Although this guide teaches you the tricks, techniques and trade secrets of 'wowing' your man in bed, I wouldn't want you to think that I'm suggesting you kneel at the altar of your man's sexual needs, making your body and your *self* subservient to the requirements of his libido.

This guide is really about *you*. About *your* sensuality. This guide wants you to feel sexy and confident. This guide wants to put *you* in control of *your* sex life.

So, with that in mind, I want to make a few suggestions.

(Now, if you're a woman who already knows her own mind, her own body and is fully conversant with the strange and exhilarating hot zone where the two meet, feel free to skip this bit.)

1. Before going to bed with a man, ask yourself, are you *absolutely* certain this is what *you* want to do? If you feel in anyway pressured or uneasy about taking things to the next level, then don't rush things. Wait until you're ready. Any guy worth a dime is going to respect your feelings. If he makes for the door, then good riddance to bad rubbish. He isn't the kind of guy you need in your life.

2. Despite the fact that sex is an inordinate amount of fun, it can have serious consequences. Please remember to take all necessary precautions against unwanted pregnancy and sexually transmitted disease. Sorry to sound like a cross between your mom, a high school teacher and a worldly nun, but it needs to be said.

3. Don't put yourself under too much pressure. Sex should be a pleasurable experience. You shouldn't feel as if you're taking a test. Relax. Enjoy yourself. And, remember, practice makes perfect. If at first you don't succeed, try, try again.

4. Talk to your friends and family. Sex is a near-universal activity. Pretty much everyone does it. If you have doubts, anxieties and insecurities, it really does help to share. You'll be surprised just how many vivacious 'women of the world' have disastrous and embarrassing sexual experiences in their past. These incidents will almost always be filed under 'I Can Laugh About It Now...' Once you realise that sex is largely a matter of trial and error, and that few people engage in it without a certain amount of nervousness, you'll feel a lot more relaxed.

5. Each chapter contains a section entitled 'What's in it for You?'. This is a question that should be foremost in your mind when it comes to matters of the flesh. You're not a sex aid. You're a human being with complex sexual desires of your own. Make sure *you're* satisfied.

Good luck.

And enjoy.

SEX AND THE TAURUS MAN

An Overview

If you like the strong, silent type, you'll love the Taurus man. He's also fiercely loyal and incredibly trustworthy. He dislikes artificiality of any kind, so it's always best to be honest and upfront with him. He admires those who have encountered and overcome adversity.

What Does Sex Mean to the Taurus Man?

The Taurus man enjoys sex. He sees it as something natural, wholesome and fun. Sex isn't something that can be rushed with the Taurus man. For him, sex, love and friendship are all inextricably intertwined, not separate components of a relationship. Consequently sex will be taken as a natural next step in the ongoing narrative of your relationship. He isn't a one-night-stand kind of guy.

He is a little slow on the uptake and easily embarrassed but once the Taurus man is fully turned on, you'll find yourself thinking, *Wow! Where has this man-beast been hiding all this time?* As the saying goes, *it's always the quiet ones...*

What's in it for you?

Sex with the Taurus man will be vigorous. And there's very little danger of a 'flash in the pants': Taurus men are known for their endurance in all things, including (you'll be delighted to learn) matters of the flesh. What's more, he'll take pleasure from pleasing you. So, unlike the 'feet first' Aries, the Taurus man will happily take his time getting to the main course. For the Taurus man, the journey and the destination are almost one and the same thing.

As for the afterglow, to the Taurus man it's all one with what went before. There's no danger of him announcing, *Well, that's me done* and making an exit.

What works for him?

When it comes to bedding the Taurus man, it's no exaggeration to say he's something of minefield. Firstly, as I've said before, he can be a little slow on the uptake. You can make as many suggestive remarks as you like. Fact is, they just won't register. The Taurus man doesn't do innuendo.

Flirting your way into his pants isn't going to work either. The Taurus man is easily embarrassed and is intuitively distrusting of anything that seems in any way artificial or forced. If you come over all vampish, he's going to run a mile.

The Taurus man is, by nature, very trusting. Somewhat perversely, this means it's highly likely he's been hurt before. Which means he's almost certainly going to have developed a number of defence mechanisms against the blindingly obvious.

So, what's a girl to do?

It's actually pretty simple. Act naturally and let nature take her course.

Think of all those Hollywood chick flicks. Girl meets boy etc. I know, I know: nobody believes that crap anymore. But when it comes to the Taurus man, Hollywood works.

A glance becomes a lingering glance. A lingering glance becomes a soft, almost innocent kiss. A soft, almost innocent, kiss becomes something firmer, more insistent. Tongues touch. There is a spark. Hands begin to explore. Buttons are unbuttoned. Zips are unzipped. You get the picture.

When it comes to catching his eye, the Taurus man is attracted to femininity, so you can never go wrong with a dress which subtly displays all the right curves. The keyword here is 'subtly', of course. Despite the Taurus man's dislike of artificiality, he is not averse to a little glamour. Strategic use of make-up, particularly lipstick, can have a devastating effect on the Taurus man. I of course mean 'devastating' in a good way!

Perfume is crucial. The Taurus man loves a fine perfume: something fresh and natural, with just a hint of the exotic.

In terms of colours, the Taurus man finds pastel shades appealing, particularly blue. Soft, sensually-textured materials are a must.

Regarding those aforementioned 'defence mechanisms', the Taurus man will tend to trust those who demonstrate trust in him. The simple act of confiding in him will deactivate those mechanisms in no time at all.

So, you've caught his eye, won his trust; how do you get things to the 'next level'?

You'll definitely get a sense of when he wants to take things to the next level: the kisses will become more intense, he will pull your body closer, there will be a tangible increase in his passion which, with practically any other sign of the zodiac would inevitably lead to sex. However, this is the Taurus man, so he it's very likely he'll step up to the plate without going for the home run.

There's a few simple things you can do to get him to swing that bat.

Firstly, he needs to be completely at ease. This means you are much more likely to succeed if it's his place rather than yours. Because the Taurus man is notoriously slow off the mark, you'll need to provide some blindingly obvious indicator that tonight is not like any other night. The easiest way to do this is to wear something especially sexy. Something shorter than he's seen you wearing before, something more revealing.

Once you've effectively sign-posted what tonight is all about, turning the Taurus man on is the easiest thing in the world. His five senses are almost always turned up to eleven. He is as responsive to smell, sound and taste as other men are to sight and touch alone. The right perfume (fresh and floral, of course), the sound of a sigh and the taste of cherry lip balm will all send the right signals.

The Taurus man's erogenous zones are easily accessed: the throat and neck. If you gently run your nails over the back of his neck as you kiss, don't be too surprised if his passion immediately shifts up a notch. Kissing his throat will drive him wild. And thank your lucky stars your man isn't a Capricorn. Their erogenous zone is the back of the knee. How on earth do you subtly activate that weird little hot spot?!

Because, for the Taurus man, sex is a natural and healthy manifestation of love and trust, he isn't one for kinky experimentation. So, if you're looking for someone to engage in *Fifty Shades of Grey* roleplaying sessions, the Taurus man is probably not the best of collaborators. Slap him on the ass with leather strap and he'll most likely just slap a restraining order on you in return! But if you're looking for good, honest, dependable lovemaking (and, frankly, isn't that what most of us are looking for?) then the Taurus man is very much for you.

Given all of the above, missionary sex is just fine for the Taurus man. However, if you're in the mood for something a little different, something to keep his interest well and truly piqued, I recommend a wholesome, romantic position I like to call the Hug-a-Bull.

This is ostensibly missionary-position sex but taken-up a notch. Whereas with the traditional missionary position your legs will tend to be quite low, running approximately parallel to his, for the Hug-a-Bull, you'll need to pull your knees up as high as you can, crossing your ankles over his lower back. This will increase the depth of his penetration. A pillow or cushion placed under your buttocks will accentuate this even further.

By placing gentle pressure on his lower back, you'll encourage him to arch up

above you, supporting himself on his arms. This allows for plenty of eye contact, crucial to creating a sense of openness and honesty. Remember, truth matters to the Taurus man. What's more, you'll be presented with easy access to his erogenous zones: the neck and throat. Take every opportunity to touch, stroke and kiss him here.

The One Thing You Must Do

Earn his trust and put him at ease.

The One Thing You Mustn't Do

Don't deceive him in any way at all, *ever*.
